

ENVIRONMENTAL POLICY

Employees of WF Energy Controls are responsible for the implementation of and compliance with this Policy.

In order to meet the above requirement, WF Energy Controls' management will:

- Operate in line with AS/NZS ISO 14001 Environmental Management Systems;
- Ensure that this policy statement is appropriate to the nature of the kind of work, the scale and environmental impacts of manufacturing activities, and products produced and services provided to customers and the public;
- Strive continuously to improve the Company's environmental performance by implementing environmental management manual and procedures, and regularly review their effectiveness;
- Commit to comply with applicable legal and relative requirements, to continually improve and prevent pollution;
- Establish framework for setting and reviewing environmental objectives and targets and monitor our performance through the establishment of Key Performance Indicators;
- Establish processes to review the environmental aspects and impacts of WF Energy Controls work activities prior to undertaking the work, and implement appropriate procedures to manage potential risk to the environment;
- Report and record environmental incidents and non-compliances, and initiate action to improve performance, rectify damage and prevent recurrence;
- Establish mechanisms for employees to report concerns about environmental issues and respond promptly to their concerns;
- Develop employee, contractor awareness of their environmental obligations through education and training, and where required, make available to the public.

To achieve this policy I expect the full cooperation of every member of the organisation.

This signed statement confirms my personal commitment to this Policy.

.....
Tony Hogg

Group General Manager –Energy Controls Group
